La Finca del Lechero is a substantial and characterful country home occupying approximately 3,924 m² of private grounds on the outskirts of Dénia. Offering around 405 m² of living space, six bedrooms and flexible accommodation for a large or extended family, the property enjoys a remarkably convenient setting within walking distance of the town and approximately 1.5 km from the Mediterranean coast.

Dating from the 1950s, the house was carefully restored from its original structure and expanded over the years to create the generous family home seen today. Its layout allows relatives and guests to enjoy their own space while remaining connected within one property.

A discreet driveway leads through the grounds. (Ask for More Details!)
