Completed in March 2025 and never lived in, this contemporary three-storey townhouse offers the rare combination of a brand-new, move-in-ready home in a quiet, green setting just minutes from the beaches of Jávea and within easy reach of Moraira and Dénia.

Surrounded by countryside and built for comfortable family living, it's an ideal base for anyone who wants space, light and modern efficiency without giving up proximity to the coast.

A Home Designed Around Daily Life

Three floors are connected by both a staircase and a private lift, making the layout as practical as it is comfortable a real advantage for families, older buyers, or anyone who simply prefers not to climb stairs. (Ask for More Details)
