2,200m<sup>2</sup>

This one level villa plus two separate areas for guest accommodation and a garage, is fully equipped with underfloor heating, heat pump, 22 solar panels and special lighting. The double insulated walls and ceilings in combination with the artful window frames offer you an ultimate very spacious villa to enjoy all year round.

Under the ground floor villa with 4 bedrooms and 3 bathrooms is also a flat with 2 bedrooms, living room and bathroom. In addition, there is a separate spacious air-conditioned casita which is currently used as a laundry room with two washing machines, 2 dryers, and a cold water sink. This can be converted into another bedroom...(Ask for More Details!)
